

## Investor Centre

Partners Value Investments L.P. invests on a value basis in companies that are, or have the potential to be, global champions in their respective industry. These companies have established solid market positions, offer a premier service or product, produce stable and consistent cash flows and are financially strong. We seek companies that are well-managed by motivated management teams who have a meaningful personal investment in their business and are driven to succeed. Finally, we try to invest in such companies at a price that represents a significant discount to the intrinsic value of their business.

Additional information on the Company and its public subsidiaries, including the Company's Annual Information Form, is available on SEDAR+'s website at <http://www.sedarplus.ca>.
